pacific micro international software & The North Sea Institute For The Overmind

presents

The Legowelt Elektrovolt Roland JV2080 Sample Kit!!!

322 samples from the legendary 90s monster synthesizer!
All free for you to use in your favourite sampler.
Format of the samples is 44khZ 16 bit Mono

What we got for U:

- 36 Atmo sounds
- 36 Bass sounds
- 20 Brass sounds
- 49 Ethno sounds
- 54 Pad sounds
- 100 Synth Sounds
- 10 Strings Sounds
- 17 Sequences

Programmed and Recorded By Legowelt & Elektrovolt at the North Sea Institute For The Overmind
©2015 http://www.legowelt.org

The samples use oscillator waves from the original JV2080 Roms, the Vintage

Synth, Asian, Special FX and Orchestral Celtic cards.

Whats in this 253.7 MB ZIP:

- The 322 samples in the various folders (Atmo, Bass, Brass, Ethno, Pad, Synth, Strings and Sequences)
- Information.pdf this information file
- JV2080a.JPG & JV2080b.JPG 2 pix by Elektrovolt

The samples are all free to use, except of course don't put them in another sample pack or sell them commercially.
If you make a hit record with it or it changes your life you can always make a donation to your favourite charity.
